**Communication Cord** – video / photography installation

Characters and language are salient media for communication and key to the advancement of civilization. Although humankind created a surprising revolution in speed and technology with the computer the chasm between them, instead of closing, has widened. Relying on an instinctual sense of perception like the feelers of insects, we can enhance communication, going beyond the borders of characters and language.

文字和語言是溝通的要器與文明教化的進程，雖然人類利用電腦在速度及科技上創造了驚人的成就，然而人與人之間的距離非但沒有縮短，反而越來越疏遠。若是人類學習觸鬚昆蟲依靠感官來認知，也許更能超越文字與語言的障礙。
